=====

I made this model because the previous one did not fit in the printer box.

This model has 2 degrees of freedom and is attached to the end of a 40x40 aluminum profile.

For the swivel joint, I used M5x20 bolts.

It is better to print with supports, especially the part that is attached to the profile.

=====

Я сделал эту модель так как предыдущая не вошла в короб для принтера.

У этой модели 2 степени свободы и она крепится на торец алюминиевого профиля 40x40.

Для шарнирного соединения я использовал болты м5x20.

Печатать лучше с поддержками, особенно ту деталь, которая крепится к профилю.

## Print Settings

### Printer Brand:

Creality

### Printer:

Ender 3 Pro

### Rafts:

No

### Supports:

Yes

### Resolution:

0.2

### Infill:

10
